INDEPENDENT AUDITORS' REPORT

Honorable Mayor and
Members of the City Council
City of Buffalo
Buffalo, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Buffalo (the City), Minnesota as of and for the year ended December 31, 2013, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Honorable Mayor and Members of the City Council
City of Buffalo, Minnesota

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Buffalo, Minnesota as of December 31, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-a-Matter

As discussed in Note 13 to the financial statements, the City adopted the provisions of Government Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*, as of December 31, 2013. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budget comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Honorable Mayor and Members of the City Council
City of Buffalo, Minnesota

Other Matters (Continued)

Other Information (Continued)

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The computation of legal debt margin, tax levies to retire bonded indebtedness and property valuations, levies and collections has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 4, 2014, on our consideration of the City of Buffalo's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Buffalo's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

CITY OF BUFFALO, MINNESOTA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2013

As management of the City of Buffalo (the City), Minnesota, we offer readers of the City of Buffalo's financial statements this narrative overview and analysis of the financial activities of the City of Buffalo for the fiscal year ended December 31, 2013.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City of Buffalo exceeded its liabilities at the close of the most recent fiscal year by \$52,307,868 (net position). The unrestricted portion of net position, the portion used to meet the City's ongoing obligations to citizens and creditors, is a deficit of \$2,148,502.
- The City's total net position decreased by \$2,589,119 from 2012.
- As of the close of the current fiscal year, the City of Buffalo's governmental funds reported a combined ending fund balance of \$6,072,431, an increase of \$1,517,772 in comparison with the prior year. The overall *unassigned fund balance* is a deficit \$1,741,839.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$3,195,058, or 49% of total 2013 General Fund expenditures.
- The City of Buffalo's total bonded debt increased by \$2,055,680 or 2.1% during the current fiscal period.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City of Buffalo's basic financial statements. The City of Buffalo's basic financial statements consist of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the financial statements

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Buffalo's finances, in a manner similar to private-sector business.

The *statement of net position* presents information on all of the City of Buffalo's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Buffalo is improving or deteriorating.

**CITY OF BUFFALO, MINNESOTA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2013**

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-Wide Financial Statements (Continued)

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned and unused compensated absences).

Both of the government-wide financial statements distinguish functions of the City of Buffalo that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (*business-type activities*). The governmental activities of the City of Buffalo include general government, public safety, highways and streets, sanitation, culture and recreation and community development. The business-type activities of the City of Buffalo include a water utility and sewer utility, electric utility, liquor stores, and a municipal golf course (Wild Marsh).

The government-wide financial statements can be found on pages 18-20 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Buffalo, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Buffalo can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a city's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the city's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental functions* and *governmental activities*.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Fund Financial Statements (Continued)

Governmental Funds (Continued)

The City of Buffalo maintains ten individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Debt Service Fund, Capital Project Fund, and HRA Debt Service Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The basic governmental fund financial statements can be found on pages 21-26 of this report.

Proprietary Funds

The City of Buffalo maintains four proprietary fund types. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Buffalo uses enterprise funds to account for its water and sewer utilities, electric utilities, liquor store operations and golf course operations.

The proprietary fund statements provide the same type of information as business-type activities in the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer fund, the electric fund, liquor fund, and golf course fund which are considered to be major funds of the City of Buffalo. The basic proprietary fund financial statements can be found on pages 27-36 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 37-67 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information demonstrating* the City of Buffalo's compliance with its adopted budget for the General Fund. The General Fund budgetary comparison schedule and related notes can be found on pages 68-72 of this report.

The combining statements referred to earlier in conjunction with nonmajor governmental funds are presented immediately following the required supplementary information on the General Fund budgetary comparison. Combining and individual fund statements can be found on pages 73-80.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a city's financial position. In the case of the City of Buffalo, total assets and deferred outflows of resources exceeded total liabilities by \$52,307,868 at the close of the most recent fiscal year compared to \$56,464,778 at the end of 2012.

By far the largest portion of the City of Buffalo's net position (90%) reflects its net investment in capital assets (e.g. land, buildings, machinery, equipment, and infrastructure), less any related debt used to acquire those assets that are still outstanding. The City of Buffalo uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Buffalo's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The deferred outflows of resources presented above are a result of the City's implementation of GASB 65 which reclassified the loss on refunding of bonds from a contra liability to this new classification. In addition, all bond issuance costs previously reported as assets were eliminated. See Note 13 for effect on beginning net position.

The remaining balance of the City of Buffalo's net position are *restricted net position* (18%) that can be used only for debt service or other purposes. The City reports a deficit for *unrestricted net position* that may be used to meet the City's ongoing obligations to citizens and creditors.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Governmental Activities

Governmental activities decreased the City of Buffalo's net position by \$557,103. The most significant change in governmental net position is due to the effect of accounting for net position under the full accrual basis. Under full accrual accounting, current year outlay for infrastructure will be expensed over the useful life of the infrastructure. This capital outlay for the infrastructure is budgeted for during the current year.

Business-Type Activities

Business-type activities decreased the City of Buffalo's net position by \$2,032,016, thereby accounting for 78% of the total decrease in the net position of the City of Buffalo. The most significant change in business-type net position is due to the expenses and transfers to other funds growing faster than revenues.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City of Buffalo uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the City of Buffalo's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Buffalo's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a city's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Buffalo's governmental funds reported combined ending fund balances of \$6,072,431, an increase of \$1,517,772 in comparison with 2012. The City reported deficit unassigned fund balance in the amount of \$1,741,839. The remainder of fund balance is nonspendable or restricted to indicate that it is not available for new spending. At December 31, 2013 fund balances were as follows:

	Balance	Increase (Decrease) From 2012
General Fund	\$ 3,213,186	\$ 657,828
Debt Service Fund	4,403,807	(243,175)
Capital Project Fund	1,953,722	1,151,419
HRA Debt Service Fund	(1,916,122)	2,297
Other Governmental Funds	(1,582,162)	(50,597)
Total	\$ 6,072,431	\$ 1,517,772

The General Fund is the chief operating fund of the City of Buffalo. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$3,195,058.

During the current fiscal year, the City of Buffalo's General Fund balance increased by \$657,828. The increase was a result of operating transfers from the electric and liquor funds and an increase in general property tax revenues and building permit fees.

Debt Service

The decrease in the Debt Service Fund balance was the result of scheduled principal and interest payments.

Capital Project

The Capital Projects Fund balance increased as a result of the issuance of bonds during 2013.

HRA Debt Service

The increase in the HRA Debt Service Fund balance was due to more refunds and reimbursements received during 2013.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS (CONTINUED)

Proprietary Funds

The City of Buffalo's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total net position in the Electric Fund at the end of 2013 was \$12,637,531, of which \$3,571,727 is unrestricted. Net position increased \$664,581 during the current year primarily due to an increase in operating revenue.

The Water and Sewer Fund has total net position of \$6,092,412, of which \$1,618,669 is unrestricted. The decrease in net position of \$2,157,787 from 2012 was due to bonded debt interest expense not covered by operating revenues.

The Liquor Fund has total net position of \$1,322,673. It has unrestricted net position of \$168,241. Net position increased by \$53,752 from 2012. The net position increase is consistent with prior years and includes an annual transfer to the General Fund (see Note 8).

The City purchased Wild Marsh Golf Course in May 2004. Wild Marsh has total net position of \$(4,942,550) and unrestricted net position of \$(4,176,925) primarily due to operating losses incurred in the nine and one-half years of operations.

GENERAL FUND BUDGETARY HIGHLIGHTS

Revenues were \$16,916 over budget due mainly to an increase in charges for services. Expenditures came in over the budgeted amounts by \$33,379 which is mainly due to general government and public safety being over budget. This resulted in a net fund balance decrease of \$16,463 compared to budget for the fiscal year (excluding other financing sources and uses). Refer to pages 68-70 of the required supplementary information for additional information.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The City of Buffalo's investment in capital assets for its governmental and business-type activities as of December 31, 2013, amounts to \$139,340,243 (net of accumulated depreciation). This investment in capital assets includes land, buildings, office equipment and furniture, vehicles, machinery and equipment, other capital assets, and infrastructure. The total decrease in the City of Buffalo's investment in capital assets (net of accumulated depreciation) was \$704,520 when compared to 2012. Most of this decrease can be attributed to the depreciation of the City's assets.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
GOVERNMENTAL ACTIVITIES
DECEMBER 31, 2013

	<u>2013</u>
Total Fund Balance for Governmental Funds	\$ 6,072,431
Total net position reported for governmental activities in the statement of net position is different because:	
Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds. Those assets consist of:	
Land	1,724,784
Construction in Progress	4,720,869
Land Improvements	12,886,616
Buildings and Improvements	17,334,082
Improvements Other than Buildings	3,349,287
Vehicles	3,207,862
Equipment	6,433,325
Infrastructure	73,478,003
Less: Accumulated Depreciation	(66,768,836)
Some of the City's property taxes, special assessments, and other receivables will be collected after year-end, but are not available soon enough to pay for the current-period's expenditures and, therefore, are reported as deferred inflows of resources in the governmental funds.	5,836,662
The loss on refunding is reported as a deferred outflow on the statement of net position and amortized over the life of the bonds.	45,687
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. Accrued interest for general obligation bonds is included in the statement of net position.	(295,483)
Long-term liabilities that pertain to governmental funds, including bonds payable, are not due and payable in the current period and, therefore, are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the statement of net position. Balances at year-end are:	
Bonds Payable	(29,160,767)
Unamortized Discounts and Premium and Bond Issuance Costs	(320,136)
Note Payable	(169,363)
Obligations Under Capital Leases	(808,949)
Compensated Absences Payable	(368,272)
Total Net Position of Governmental Activities	<u>\$ 37,197,802</u>

RECONCILIATION OF GOVERNMENTAL STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCE
TO STATEMENT OF ACTIVITIES
YEAR ENDED DECEMBER 31, 2013

	<u>2013</u>
Net Change in Fund Balances-Total Governmental Funds	\$ 1,517,772
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	
Capital Outlays	4,220,131
Capital Contributions	156,506
Depreciation Expense	(4,317,164)
Some capital asset additions are financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net position, the lease obligation is reported as a liability. Repayment of capital lease principal is an expenditure in the governmental funds, but repayment reduces the lease obligation in the statement of net position.	
Capital Lease Proceeds	(178,894)
Principal Payments for Capital Leases	312,945
The governmental funds report bond proceeds as financing sources, while repayment of bond principal is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Also, governmental funds report the effect of bond premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:	
General Obligation Bond Proceeds	(4,160,000)
Bond Discount/Premium	(187,745)
Repayment of Bond Principal and Note Payable	2,151,033
Change in Accrued Interest Expense for General Obligation Bonds	15,344
Amortization of Bond Discount/Premium	29,644
Change in delinquent and deferred property taxes, special assessments receivable, and other receivables will be collected subsequent to year-end, but are not available soon enough to pay for the current-period's expenditures and, therefore, are deferred in the governmental funds.	(110,393)
In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).	<u>(6,282)</u>
Change in Net Position of Governmental Activities	<u>\$ (557,103)</u>

NOTES TO FINANCIAL STATEMENTS

CITY OF BUFFALO, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Buffalo, located in Wright County in Minnesota, conform to U.S. generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant policies.

The City adopted GASB No. 65, *Items Previously Reported as Assets and Liabilities*, retroactive to January 1, 2013. This statement requires certain items that were previously reported as assets and liabilities to be reported as deferred outflows of resources or deferred inflows of resources in the year incurred or received.

A. Financial Reporting Entity

As required by GAAP, the financial statements of the reporting entity include those of the City of Buffalo and its component unit. A component unit is a legally separate entity for which the primary government is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component include whether or not the primary government appoints the voting majority of the potential component unit's board, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally dependent upon by the potential component unit.

The Housing and Redevelopment Authority (HRA) of Buffalo is an entity legally separate from the City. However, for financial reporting purposes, the HRA is reported as if it were part of the City's operations (blended component unit) because the HRA provides services primarily to the City of Buffalo and the City Council appoints the commission board members.

B. Basic Financial Statements

1. Government-Wide Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) display information about the primary government and its component units. These statements include the financial activities of the overall City government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external parties for support.

In the government-wide statement of net position, both the governmental and business-type activities columns: (a) are presented on a consolidated basis by column; and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts: (1) net investment in capital assets; (2) restricted net position; and (3) unrestricted net position. The City first utilizes restricted resources to finance qualifying activities.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basic Financial Statements (Continued)

1. Government-Wide Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of each function of the City's governmental activities and different business-type activities are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include: (1) fees, fines, and charges paid by the recipients of goods, services, or privileges provided by a given function or activity; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund Financial Statements

The fund financial statements provide information about the City's funds, including its blended component unit. Separate statements for each fund category—governmental and proprietary—are presented. The emphasis of governmental and proprietary fund financial statements is on major individual governmental and enterprise funds, with each displayed as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor funds. The City reports all proprietary funds as major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or incidental activities.

The City reports the following major governmental funds:

General Fund

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund

The Debt Service Fund accounts for the accumulation of resources for, and the payment of, interest, principal and related costs on general long-term debt.

Capital Project Fund

The Capital Project Fund accounts for financial resources to be used for acquisition or construction of major capital facilities (other than those financed by proprietary funds).

B. Basic Financial Statements (Continued)

2. Fund Financial Statements (Continued)

HRA Debt Service Fund

The HRA Debt Service Fund accounts for the accumulation of resources for, and the payment of, interest, principal and related costs on general long-term debt for the HRA.

The City reports the following major proprietary funds:

Electric Fund

The Electric Fund accounts for customer electric service charges that are used to finance electric operating expenses.

Water and Sewer Fund

The Water and Sewer Fund accounts for customer water and sewer service charges that are used to finance water and sewer operating expenses.

Liquor Fund

The Liquor Fund accounts for customer sales that are used to finance liquor store operating expenses and provide funds for general operations of the City.

Golf Course Fund

The Golf Course Fund accounts for customer sales that are used to finance golf course operating expenses.

C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus and Basis of Accounting (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. The City considers all revenues to be available if they are collected within 60 days after the end of the current period. Property and other taxes, licenses, and interest are all considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues in the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

All proprietary funds are accounted for using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's Electric, Water and Sewer, Liquor Stores and Golf Course Funds are charges to customers for sales and services. Operating expenses for these funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Budgets

Annual appropriation budgets are adopted for the following funds: General, Fire, Library, Airport, and Civic Center.

The General Fund budget does not include activity related to the community center or parks. Therefore, the budgetary basis for the General Fund differs from GAAP. Budgets for the Fire, Library, Airport, and Civic Center are adopted on a basis consistent with GAAP.

Budgeted amounts are reported as originally adopted, or as amended by the City Council. Budgeted expenditure appropriations lapse at year-end.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Budgets (Continued)

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to September 1, the administrator submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments, and the final tax levy and budget are adopted.
3. The City administrator is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.
4. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds and some enterprise funds. Formal budgetary integration is not employed for the capital projects and debt service funds.
5. Budgets are adopted on a basis consistent with GAAP except for the General Fund, as previously described, and enterprise funds where capital expenditures are budgeted for as an operating expense. Budgeted amounts presented are as originally adopted. The City does not budget for some special revenue funds that have minimal transactions nor is an annual budget prepared for the HRA.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balances

1. Cash and Investments

Cash and investment balances from all funds are combined and invested to the extent available in certificates of deposits and other allowable investments. Earnings from investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

Short-term highly liquid debt instruments (including commercial paper, bankers' acceptances and U.S. Treasury and Agency obligations) purchased with a remaining maturity of one year or less are reported at amortized cost. Other investments are reported at fair value.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balances (Continued)

2. Property Tax Credits

Property taxes on homestead property (as defined by state statutes) are partially reduced by property tax credits. These credits are paid to the City by the state in lieu of taxes levied against homestead property. The state remits these credits through installments each year.

3. Property Tax Revenue Recognition

Property tax levies are set by the City Council in December of each year, and are certified to the County Auditor for collection in the following year. In Minnesota, counties act as collection agents for all property taxes. Such taxes become a lien on property on January 1 and are recorded as receivables by the City at that date. Real property taxes may be paid by taxpayers in two equal installments on May 15 and October 15. Personal property taxes may be paid on February 28 and June 30. The County provides tax settlements to cities and other taxing entities three times a year.

Within the governmental fund financial statements, the City recognizes property tax revenue when it becomes both measurable and available to finance expenditures of the current period. Taxes which remain unpaid at December 31 are classified as delinquent and are not recognized as revenue in the governmental fund financial statements because they are not known to be available to finance current expenditures. The portion of delinquent taxes not collected by the City in January is fully offset by deferred inflows of resources in the governmental funds because it is not available to finance current expenditures. No allowances for uncollectible taxes have been provided because such amounts are not expected to be material. Property tax revenue in governmental activities is susceptible to full accrual on the government-wide statements.

4. Special Assessment Revenue Recognition

Special assessments are levied against benefited properties for the cost or a portion of the cost of special assessment improvement projects in accordance with state statutes. These assessments are collectible by the City over a term of years usually consistent with the term of the related bond issue. Collection of annual installments (including interest) is handled by the County Auditor in the same manner as property taxes. Property owners are allowed to (and often do) prepay future installments without interest or prepayment penalties.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balances (Continued)

4. Special Assessment Revenue Recognition (Continued)

Within the fund financial statements, the revenue from special assessments is recognized by the City when it becomes measurable and available to finance expenditures of the current fiscal period. In practice, current and delinquent special assessments received by the City are recognized as revenue for the current year.

Special assessments are collected by the County and remitted by December 31 (remitted to the City the following January) and are also recognized as revenue for the current year. All remaining delinquent assessments receivable in governmental funds are completely offset by deferred inflows of resources. Special assessment revenue in governmental activities is susceptible to full accrual on the government-wide statements.

Once a special assessment roll is adopted, the amount attributed to each parcel is a lien upon that property until full payment is made or the amount is determined to be excessive by the City Council or court action. If special assessments are allowed to go delinquent, the property is subject to tax forfeit sale and the first proceeds of that sale (after costs, penalties and expenses of sale) are remitted to the City in payment of delinquent special assessments. Generally, the City will collect the full amount of its special assessments not adjusted by City Council or court action. Pursuant to State Statutes, a property shall be subject to a tax forfeit sale after three years unless it is homesteaded, agricultural or seasonal recreational land in which event the property is subject to such sale after five years.

5. Utility Billing

The City bills customers monthly for the following utility services: electric, sewer and water, sanitation, recycling, storm sewer and internet. The City bills and recognizes the electric, sewer and water services revenue at mid-month, when the meters are read.

6. Inventories

Materials and supplies, if material, are recorded at original cost and are reported under the consumption method in the Governmental Funds. Inventories in the City's utility funds and liquor store funds are reflected at average cost.

7. Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables are classified as "due from other funds", "interfund lease receivable", "interfund note receivable", or "advances to other funds" on the balance sheets of the fund financial statements.

8. Loans Receivable

The City records loans receivable for a revolving loan program that assists residents in the rehabilitation of homes. Also, the HRA issues loans to local businesses. The City estimates the allowance based on the specific identification method. The estimated allowance as of December 31, 2013 for the HRA loans is \$8,296 and the estimated allowance for the revolving loan program is \$97,061.

9. Property Held for Resale

These assets are recorded at the lower of original cost or current net realizable value in the governmental fund, which purchased them.

10. Capital Assets

Capital assets are capitalized at historical cost, estimated historical cost, or in the case of contributions, at their estimated fair market value at the time received. In the case of the initial capitalization of infrastructure, the City retroactively implemented the reporting of this item when GASB 34 was implemented. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are expensed as incurred.

Capital assets related to general governmental activities are recorded in the government-wide statements, but are not reported in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are normally sold for an immaterial amount when declared as no longer needed for City purposes, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 5 to 10 years for Office Furnishings, Office and Computer Equipment, Vehicles and Large Equipment; 20 to 50 years for Infrastructure and 40 to 50 years for Buildings and Plants. Capital assets not being depreciated include land and construction in progress.

Property, plant and equipment used by proprietary funds are stated at cost or estimated historical cost. Contributed capital assets are recorded at estimated fair market value at the time received.

11. Compensated Absences

Vacation

City employees earn vacation days based upon the number of completed years of service. The City compensates employees for unused vacation upon termination of employment. Accordingly, the expenditure for vacation is recognized as it is used in the governmental funds and is recognized as it is earned in the proprietary funds. Accrued vacation (unused) is recorded in the proprietary fund level statements and in the government-wide statements as compensated absences.

11. Compensated Absences (Continued)

Sick Leave

Employees are entitled to paid sick leave at various rates for each month of full-time service. Sick pay is recorded as an expenditure when payment is made.

Severance

Regular employees who retire from active service receive pay for a percentage of their unused sick leave as severance. The percentage of sick leave varies from 25% to 40% based on years of service. The estimated severance liability is recorded in the fund level statements of the proprietary funds as compensated absences payable and in the government-wide financial statements as a component of long-term debt.

12. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bond issue costs are expensed in the year of issuance.

In the governmental fund financial statements, bond premiums and discounts, as well as bond issue costs are recognized during the current period. The face amount of the debt issue is reported as an other financing source. Premiums and discounts received on debt issuances are reported as other financing sources and uses, respectively. Bond issuance costs are reported as debt service expenditures.

13. Deferred Outflows of Resources

The City's governmental activities and proprietary fund financial statements report a separate section for deferred outflows of resources. This separate financial statement element reflects a decrease in net position or fund balance, that relate to future periods. The City will not recognize the related outflow until a future event occurs.

14. Deferred Inflows of Resources

The City's governmental fund financial statements report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in fund balance that applies to a future period. The City will not recognize the related revenue until a future event occurs. The deferred inflow of resources occurs because governmental fund revenues are not recognized until available (collected not later than 60 days after the end of the City's year) under the modified accrual basis of accounting. The city does not have deferred inflows of resources to report in its proprietary fund financial statements in the current year.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balances (Continued)

15. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses made on behalf of another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

All interfund transactions are eliminated except for activity between governmental activities and business-type activities for presentation in the government-wide statements of net position and statements of activities.

16. Allowance for Uncollectible Accounts

Allowance for uncollectible accounts receivable are established when City management believes that some portion of the receivable will not be collected. Management's estimate of the required allowance is based upon historical experience and analysis of receivables on a specific identification basis.

17. Net Position

In the government-wide financial statements and in the proprietary fund level statements, net position is reported in three categories: net investment in capital assets; restricted net position; and unrestricted net position. Net investment in capital assets is separately reported because the City reports all capital assets which make up a significant portion of total net position. Restricted net position accounts for the portion of net position restricted by parties outside the City. Unrestricted net position is the remaining net position not included in the previous two categories.

18. Fund Balance

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable and spendable fund balances. Spendable fund balances include restricted, committed, assigned and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form such as inventories, or are legally or contractually required to be maintained intact.

Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The committed fund balances are self-imposed limitations approved by the City Council, which is the highest level of decision-making authority within the City. Only the City Council can remove or change the constraints placed on committed fund balances.

Assigned fund balances are resources constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The City Council has authorized the City Administrator and the Assistant Administrator for Business and Operations to make assignments of resources for a specific purpose.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it's the City's policy to use restricted fund balance first. For the disbursement of unrestricted fund balances, it is the City's policy to use committed amounts first, followed by assigned amounts, and lastly unassigned amounts.

NOTE 2 DEPOSITS AND INVESTMENTS

The cash balances of substantially all funds are pooled by the City for the purpose of increasing earnings through investment activities. Pooled and fund investments are reported at their fair value at December 31, 2013, based on market prices. Investment earnings on cash and pooled investments are credited to all funds based on their cash balances each month. In addition, some funds received investment earnings based on other state statutes, grant agreements, contracts, and bond covenants. Pooled investment earnings for 2013 were \$13,686.

A. Deposits

In accordance with applicable Minnesota State Statutes, the City maintains deposits at financial institutions authorized by the City Council. All such depositories are members of the Federal Reserve System. *Minnesota Statutes* require that all deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledge must equal 110% of the deposits not covered by insurance or corporate surety bonds.

Authorized collateral includes: U.S. government treasury bills, notes, and or bonds; securities issued by a U.S. government agency; general obligations of local governments rated "A" or better; revenue obligations of a state or local governments rated "AA" or better; irrevocable standby letters of credit issue by a Federal Home Loan Bank; and time deposits insured by a federal agency. *Minnesota Statutes* require securities pledged as collateral to be held in safekeeping in a restricted account at the Federal Reserve Bank or at an account at a trust department of a commercial bank or other financial institution not owned or controlled by the depository.

Custodial Credit Risk – Deposits – In the case of deposits, custodial credit risk is the risk that in the event of bank failure, the City's deposits may not be returned to it. The City's deposit policy does not provide additional restrictions beyond Minnesota State Statutes. At year-end, the carrying amount of the City's deposits was entirely covered by federal depository insurance or by surety bonds and collateral in accordance with *Minnesota Statutes*.

NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

B. Investments

The City may also invest idle funds as authorized by *Minnesota Statutes* as follows:

- Direct obligations or obligations guaranteed by the United States or its agencies;
- Shares of investment companies registered under the Federal Investment Company Act of 1940 and receives the highest credit rating, is rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of thirteen months or less;
- General obligations rated "A" or better; revenue obligations rated "AA" or better;
- General obligations of the Minnesota Housing Finance Agency rated "A" or better;
- Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System;
- Commercial paper issued by United States corporations or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing 270 days or less;
- Guaranteed investment contracts guaranteed by United States commercial banks or domestic branches of foreign banks, or United States insurance companies if similar debt obligations of the issuer or the collateral pledged by the issuer is in one of the top two rating categories;
- Repurchase or reverse purchase agreements and security lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.

As of December 31, 2013, the City had the following investments in its pool:

Investment	Credit Rating	Maturity	Fair Value	Percent of Total
First American Treasury Obligations Fund - Class A Negotiable Certificates of Deposit:	AAA	N/A	\$ 402,325	66.80%
Wells Fargo	NR	5/24/2014	200,000	33.20%
			<u>\$ 602,325</u>	

NR - Not Rated

Interest Rate Risk – This is the risk that arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The City implemented a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The maximum maturity for US Treasury securities, federal agency securities and brokered certificates of deposits is 10 years and commercial paper is 270 days.

NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

B. Investments (Continued)

Credit Risk – *Minnesota Statutes* restrict the types of investments that the City may invest in. The City has an investment policy that limits its investment choices to commercial paper with a minimum credit quality of A1/P1 or better and brokered certificates of deposit with 150 IDC or higher.

Concentration of Credit Risk – The City's investment policy places the following limits on the amount the City may invest in any one issuer: \$5,000,000 for commercial paper and \$1,000,000 for brokered certificates of deposit. Percentages of concentration of credit risk by investment are shown in the table on the previous page.

Custodial Credit Risk – Investments – For an investment, this is that risk that, in the event of a failure by the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy limits brokered certificates of deposit to \$250,000 (the amount of FDIC coverage).

The deposits and investments are presented in the financial statements as follows:

NOTE 5 DEFINED BENEFIT PENSION PLANS - STATEWIDE

A. Plan Description

All full-time and certain part-time employees of the City of Buffalo are covered by defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund (GERF) and the Public Employee Police and Fire Fund, (PEPFF) which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with *Minnesota Statutes*, Chapter 353 and 356.

GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan. All police officers, firefighters and peace officers who qualify for membership by statute are covered by the PEPFF.

PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by state statute, and vest after three years of credited service. The retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service.

CITY OF BUFFALO, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

NOTE 5 DEFINED BENEFIT PENSION PLANS – STATEWIDE (CONTINUED)

A. Plan Description (Continued)

Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2% of average salary for each of the first ten years of service and 2.7% for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2% of average salary for each of the first ten years and 1.7% for each remaining year. Under Method 2, the annuity accrual rate is 2.7% of average salary for Basic Plan members and 1.7% for Coordinated Plan members for each year of service. For PEPFF members, the annuity accrual rate is 3.0% for each year of service. The annuity accrual rate is 1.9% for each year of service for PECF members. For all PEPFF members and GERC members hired prior to July 1, 1989 whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 55 for PEPFF members and 65 for Basic and Coordinated members hired prior to July 1, 1989. Normal retirement age is the age for unreduced Social Security benefits capped at 66 for coordinated members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

There are different types of annuities available to members upon retirement. A single-life annuity is a life time annuity that ceases upon the death of the retiree—no survivor annuity is payable. There are also various types of joint and survivor annuity options available which will be payable over joint lives. Members may also leave their contributions in the fund upon termination of public service in order to qualify for a deferred annuity at any time to members who leave public service, but before retirement benefits begin.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees, who are entitled to benefits but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

PERA issues a publicly available financial report that includes financial statements and required supplementary information for GERC and PEPFF. That report may be obtained on the web at www.mnpera.org, by writing to PERA at 60 Empire Drive #200, St. Paul, Minnesota, 55103-2088 or by calling (651) 296-7460 or 1-800-652-9026.

NOTE 5 DEFINED BENEFIT PENSION PLANS – STATEWIDE (CONTINUED)

B. Funding Policy

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the state legislature. The City makes annual contributions to the pension plans equal to the amount required by state statutes. GERF Basic Plan members and Coordinated Plan members were required to contribute 9.1% and 6.25%, respectively, of their annual covered salary in 2013. PEPFF members were required to contribute 9.6% of their annual covered salary in 2013. The City of Buffalo is required to contribute the following percentages of annual covered payroll: 11.78% for GERF Basic Plan members, 7.25% for GERF Coordinated Plan members, and 14.4% for PEPFF members. The City's contributions to the Public Employees Retirement Fund for the years ended December 31, 2013, 2012 and 2011 were \$272,973, \$269,543, and \$278,198, respectively. The City's contributions to the Public Employees Police & Fire Fund for the years ended December 31, 2013, 2012 and 2011 were \$139,425, \$136,569, and \$135,656, respectively. The City's contributions were equal to the contractually required contributions for each year as set by state statute.

C. City of Buffalo Fire Relief Association

1. Plan Description

The Buffalo Fire Relief Association is the administrator of a single-employer defined benefit pension plan. The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. Benefits are established by state statute. The Buffalo Firemen's Relief Association issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by contacting the City's Fire Hall.

2. Funding Policy

The funding policy provides for contributions from the State of Minnesota and the City in amounts sufficient to accumulate sufficient assets to pay benefits when due. The annual contribution is the sum of the normal cost, the state contribution payment, and the provision for administrative expenses. The City's contributions for the years ended December 31, 2013, 2012 and 2011 were \$36,201, \$34,425 and \$75,448, respectively, equal to the required contributions for each year.

NOTE 6 STEWARDSHIP COMPLIANCE AND ACCOUNTABILITY

Deficit Fund Balances/Net Position

The City has deficit fund balances/net position at December 31, 2013 as follows:

Governmental Funds:	
HRA Debt Service	\$ (1,916,122)
Other Governmental Funds:	
Civic Center Fund	(2,832,875)
Airport Fund	(174,197)
Proprietary Funds:	
Golf Course Fund	(4,942,550)

The City intends to fund these deficits through future tax levies, special assessment levies, tax increments, transfers from other funds, and various other sources.

NOTE 7 DEFERRED AD VALOREM TAX LEVIES – BONDED DEBT

General Obligation Bond issues sold by the City are partially financed by ad valorem tax levies in addition to special assessments levied against the benefiting properties. When a bond issue to be financed partially or completely by ad valorem tax levies is sold, specific annual amounts of such tax levies are stated in the bond resolution and the County Auditor is notified and instructed to levy these taxes over the appropriate years. The future tax levies are subject to cancellation when and if the City has provided alternative sources of financing. The City Council is required to levy any additional taxes found necessary for full payment of principal and interest.

These future scheduled tax levies are not shown as assets in the accompanying financial statements at December 31, 2013 because they have not yet been levied against the properties by the county.

Future scheduled tax levies for all bonds outstanding at December 31, 2013 totaled \$20,429,746.

CITY OF BUFFALO, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

NOTE 10 RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Workers compensation coverage is provided through a pooled self-insurance program through the League of Minnesota Cities Insurance Trust (LMCIT). The City pays an annual premium to LMCIT. The City is subject to supplemental assessments if deemed necessary by the LMCIT. The LMCIT reinsures through Workers Compensation Reinsurance Association (WCRA) as required by law. For workers compensation, the City is not subject to a deductible. The City's workers compensation coverage is retrospectively rated. With this type of coverage, final premiums are determined after loss experience is known. The amount of premium adjustment, if any, is considered immaterial and not recorded until received or paid.

Property and casualty insurance is provided through a pooled self-insurance program through the LMCIT. The City pays an annual premium to the LMCIT. The City is subject to supplemental assessments if deemed necessary by the LMCIT. The LMCIT reinsures through commercial companies for claims in excess of various amounts. The City retains risk for the deductible portion of the insurance policies and for any exclusion from the insurance policies. These amounts are considered immaterial to the financial statements.

The City continues to carry commercial insurance for all other risks of loss, including disability and employee health insurance. There were no significant reductions in insurance from the previous year or settlements in excess of insurance coverage for any of the past three fiscal years.

NOTE 11 COMMITMENTS AND CONTINGENCIES

A. Federal and State Funds

The City receives financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with the terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the applicable fund. Management is not aware of any disallowed claims at this time.

During 2010, the City received federal funding for an airport project. As part of that grant agreement the City is required to operate the airport as a licensed, municipally-owned public airport at all times of the year for a period of 20 years.

NOTE 11 COMMITMENTS AND CONTINGENCIES (CONTINUED)

B. Electric Power Purchase Agreement

The City has entered into a contract with Minnesota Municipal Power Agency (MMPA) for the purchase of electric power and energy. The rates vary depending on numerous factors as outlined in the contract. The contract became effective January 1, 2006 and remains in effect through October 31, 2040. If not then terminated by five years written notice by either party, the contract continues in full force until so terminated.

C. Construction Commitments

The City entered into construction contracts for various construction projects started during the year. The following contracts had been entered into and were at various stages of completion at December 31, 2013:

Project	Contract Cost	Estimated Project Costs		Remaining Committed
		Incurred to Date *		
Downtown Enhancement	\$ 1,015,949	\$ 517,498		\$ 498,451

Total	\$ 3,632,658	\$ 2,093,980		\$ 1,538,678

* Includes Contracts Payable Amount

NOTE 12 CONDUIT DEBT OBLIGATIONS

From time to time, the City has issued Industrial Revenue Bonds and other similar type Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The Bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the state nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

CITY OF BUFFALO, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

NOTE 12 CONDUIT DEBT OBLIGATIONS (CONTINUED)

As of December 31, 2013, there were 14 series of Industrial Revenue Bonds and other similar type Revenue Bonds outstanding. The aggregate principal amount payable for the eight (8) series issued prior to January 4, 1997, could not be determined; however, their original issue amounts totaled \$26.165 million. An Industrial Revenue Note totaling \$2,750,000 and maturing in March, 2030 was issued in 2000. Three Industrial Revenue Notes totaling \$20,130,000 and maturing in March 2033 were issued in 2003. Two conduit debt issues were issued during 2006: (1) Health Care Refunding Revenue Bonds, Series 2006 totaling \$19,965,000 and (2) Educational Facilities Revenue Note, Series 2005A totaling \$5,500,000.

NOTE 13 PRIOR PERIOD ADJUSTMENT

The implementation of GASB No. 65, *Items Previously Reported as Assets and Liabilities*, resulted in January 1, 2013 net position being restated to reflect the elimination of bond issuance costs and bond underwriters discounts that were carried on the Statement of Net Position. The impact of this restatement is as follows:

CITY OF BUFFALO, MINNESOTA
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
YEAR ENDED DECEMBER 31, 2013

NOTE 1 BASIS OF ACCOUNTING

The General Fund budgetary comparison schedule is prepared on a budgetary basis of accounting. See Note 3 of the Notes to Required Supplementary Information for a reconciliation of the General Fund Budgetary Comparison Schedule to the Statement of Revenues, Expenditures and Changes in Fund Balances.

NOTE 2 BUDGETARY INFORMATION

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to September 1, the City administrator submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted in the Council chambers at City Hall to obtain taxpayer comments, and the final budget is adopted and the tax levy certified.
3. The City administrator is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Reported budget amounts are final, as amended by the City Council in 2013.
4. The City has legally adopted budgets for the General Fund, certain Special Revenue Funds, and some enterprise funds. Formal budgetary integration is not employed for the capital projects and debt service funds. Expenditures may not legally exceed budgeted appropriations at the total fund level. Monitoring of budgets is maintained at the expenditure category level (i.e., personal services, supplies, capital outlay, etc.) within each program. All amounts over budget have been approved by the City Council through the disbursement process. The City is not legally required to adopt an annual budget for the capital projects or debt service funds.
5. Budgeted amounts are as originally adopted, or as amended by the City Council. All annual appropriations lapse at fiscal year-end.
6. General government expenditures were \$1,137,621 which is \$13,018 over budget. Public Safety expenditures were \$2,444,491 which is \$15,081 over budget. Public Works expenditures were \$1,327,046 which were \$5,280 over budget. In addition, other financing uses were reported as \$587,418, which is \$157,103 over budget. These over budget expenditures and other financing uses were paid for with existing fund balance.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (CONTINUED)
YEAR ENDED DECEMBER 31, 2013

NOTE 3 BUDGETARY COMPARISON SCHEDULE RECONCILIATION

For external reporting purposes, the General Fund includes revenues, expenditures, other financing sources and uses, and fund balances of other internally maintained funds. The General Fund, however, is budgeted based on the internally maintained General Fund. Therefore, the following reconciliation is necessary to reconcile the General Fund Budgetary Comparison Schedule to the Statement of Revenues, Expenditures and Changes in Fund Balances.

INDEPENDENT AUDITORS' REPORT ON MINNESOTA LEGAL COMPLIANCE

Honorable Mayor and
Members of the City Council
City of Buffalo
Buffalo, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Buffalo (the City), Minnesota, as of December 31, 2013 and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents and have issued our report thereon dated June 4, 2014.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, tax increment financing, and city and county miscellaneous provisions.

In connection with our audit, nothing came to our attention that caused us to believe that the City of Buffalo, Minnesota failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to *Minnesota Statutes* §6.65. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City of Buffalo, Minnesota's noncompliance with the above-referenced provisions, insofar as they relate to accounting matters.

The purpose of this report is solely to describe the scope of our testing of compliance relating to the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions* and the results of that testing, and not to provide an opinion on compliance. Accordingly, this report is not suitable for any other purpose.
