

Buffalo High School

presents

Career Exploration & Job Fair

WHO: BHS students, parents/guardians,
community members

WHAT: Explore career options and employment
opportunities

WHEN: Monday, Oct. 10- 5-7pm

WHERE: BHS Bison Activity Center Door 8

WHAT BUSINESSES WILL BE REPRESENTED?

A complete list of participants is not available as we are adding vendors until the fair. There will be representation from each of the six career fields.

PURPOSE

Participants will have the opportunity to explore local businesses and learn how they can find jobs and/or build long-term, rewarding careers in the Wright County area. They can learn about the educational requirements, paid training and certification opportunities, and various jobs within each field.

CAREER PROGRAMS OF STUDY

The MN Dept of Education uses six broad career fields for developing programs of study in career and technical education. Learning and understanding these pathways gives individuals the knowledge, skills, and abilities to pursue a career of their choice. The MN Dept. of Ed Programs of Study map is found on the reserve side.

WHAT WE OFFER

Businesses will provide information about job opportunities within their companies and potential for future life-long careers. When possible, they will offer hands-on experiences to demonstrate the work environment and tasks. Some will have short videos with information. They can also answer questions about opportunities and requirements.

BENEFITS TO THE COMMUNITY

If you are looking for a job right now, or want to explore future career options - come to the Career Exploration and Job Fair to learn what Buffalo and Wright County have to offer. This will be your chance to speak directly to a number of employers, representing a variety of career fields, within Wright County.

Please notify us if you have a suggestion or question.
