In Honor of Earth Day Please Consider Adopting a Storm Drain

Storm drains in Buffalo drain directly to storm ponds, ditches, and ultimately, lakes and rivers in Wright County. Buffalo's Adopt a Drain program asks residents to Adopt-a-Storm Drain in their neighborhood and commit to keeping it clear of leaves and other debris to reduce water pollution.

When you adopt a storm drain, you are preventing these harmful pollutants from entering our local water bodies. Sweeping up around your storm drain creates healthier habitats for all plants and animals that depend on these waterways.

Adopting a storm drain is easy! Simply sign-up online to select a drain and commit to keeping it clean by sweeping or raking. Track your impact by entering the estimated total of debris into your online account. Additional program details including instructions for adopting a drain can be found on our website: ci.buffalo.mn.us/587/Adopt-a-Storm-Drain
