

Stormwater Management

The City of Buffalo promotes the value of sound stormwater management which helps to create a community where residents want to live and work.

Where stormwater flows, everything goes. Soap from car washing products contains chemicals that can harm fish and other critters.

Where stormwater flows, everything goes. Pet waste washes into sewers and carries contaminants into our lakes and rivers. Pick up after your pet!

(City Code 1985, § 10.04(19))

Where stormwater flows, everything goes. Lawn fertilizers and pesticides can wash across pavement and down drains, taking toxins with them.
