### Toward Zero Deaths

An initiative was launched on the Hwy 55 corridor called Toward Zero Deaths. The Hwy 55 corridor was identified because of the large number of serious injuries and fatalities in the area. You can make a difference today by buckling up, slowing down, driving sober and paying attention. Please help reduce the number of serious injuries and fatalities on Hwy 55!

### Tips, Myths, & Misconceptions

Many of us have dangerous driving habits that we are not even aware of. Here are some tips to help you keep driving distractions to a minimum.

Passing on the right, is it safe? Ask yourself this. If the vehicle you are passing wasn't there, would it be okay for you to be driving out of the lane you should be in?

Lots of things cause auto crashes...but distracted driving causes one of every two crashes. Safe driving requires concentration. So put down the coffee, get off the phone, and don't worry about how you look in the mirror. JUST DRIVE...AND ARRIVE SAFELY!

As always, when you exit your car ALWAYS lock the door...even if it's just for a few minutes.
